## Education

### Bennett University

Bachelor of Engineering

August 2022 - 2026

Greater Noida, India

## Experience

### Cracked Devs

Full Stack Engineer (Full Time)

Feb 2025 - Present

San Francisco Bay Area · Remote

- Developing consumer-facing mobile applications using React Native and Supabase

### Vexio.in

Fullstack Intern

May 2024 – August 2024

Bangalore, India · Remote

- Contributed to GenAI MVP development with a small engineering team
- Built full-stack features using Next.js frontend and Django backend
- Implemented state management with Zustand and animations using Framer Motion

### FOF.link

Founding Engineer

April 2024 – June 2024

Bangalore, India · Remote

- Led end-to-end development of the FOF.link platform as sole engineer
- Architected and implemented full-stack solution using Next.js and Neo4j
- Integrated authentication and user management using Clerk

## Projects

### Subly - Create Subliminals | [React Native](#) | [App Store](#)

- Lead developer for Subly project at TryMagicApps (Cracked Devs), handling end-to-end development and releasing weekly feature updates
- Implemented a seamless audio affirmation feature, enabling users to create and personalize subliminal messages for self-improvement
- The app has acquired 1,000+ users with 5-star App Store rating

### Dishcovery | [Next.js](#), [Zustand](#), [Llama Vision](#), [Redis](#) | [Code](#) | [Demo](#)

- Developed an AI-powered kitchen companion that analyzes photos of ingredients using computer vision to generate personalized recipe recommendations
- Implemented real-time recipe generation using Llama Vision from together.ai API, with Redis caching to optimize response times and reduce API calls
- Built responsive UI with Next.js App Router and Zustand for state management, resulting in seamless user experience across devices

### volnex.com | [Next.js](#), [Tailwind](#), [Shadcn](#) | [Demo](#)

- Developed a complete multipage website for a Dubai-based CFD broker company, achieving 90+ Lighthouse score with pixel-perfect design

## Technical Skills

**Languages:** C++, Python, JavaScript, TypeScript

**Web Development:** Next.js, React.js, Express, Node.js, Zustand, Redux, FastAPI, Shadcn, Tailwind, Framer Motion, GSAP

**Databases:** MongoDB, PostgreSQL, Redis, Neo4j, Kafka

**Tools/Platforms:** Docker, AWS, GitHub

## Achievements

- Ranked top 10 Nationally in Google Maps Hackathon
- HACKCBS 6.0 Web3 track winner
- MLH Hackathon Winner - Impractical Hackers 2.0
